

NUT SHELLS ASKED FOR GAS MASKS

SALEM, Oct. 12.—If our boys in the trenches and our nurses in the field are to be provided with the best gas masks procurable, the nationwide campaign to save fruit pits and nut shells must be speeded up to the limit.

An emergency now exists, and Governor Withycombe has felt the matter of sufficient importance to issue the following call to the citizens of this state:

"State of Oregon Executive Department, Salem, Ore., Oct. 7, 1918.
"I most earnestly commend the work of the Red Cross chapters in their campaign for the collection of fruit pits and nut shells, from which carbon is being extracted for manufacture into protectives against German poison gas, and I feel certain that all loyal Americans can be depended upon to co-operate wholeheartedly with the Red Cross officials in this worthy movement. When we consider the superlative sacrifices which are being made by our Liberty Boys in France, it seems unthinkable that there could be the slightest hesitation on the part of the people when the government calls upon its citizens for assistance in an emergency of this kind.

Very truly yours,
(Signed) JAMES WITHYCOMBE,
Governor of Oregon.

Fruit pits and nut shells are used in the manufacture of carbon for the respirator, and the quality of the

carbon determines largely the efficiency of the mask.
The government has asked the American Red Cross to collect for this purpose peach stones, apricot pits, prune pits, plum pits, olive pits, date seeds, cherry pits, butter nuts, Brazil nut, walnut and hickory nut shells.

Pits of cherries imported in brine from Italy should not be included, nor should any other material not mentioned in this list. It is not necessary to keep each kind of pit or shell separate. They should, however, be sound and thoroughly dried. Housewives are asked to put a pail in the corner of the kitchen, "just for the government," and as it is filled turn the contents over to the Red Cross. Two hundred peach pits or seven pounds of nut shells will produce enough carbon for one gas mask.

NOTICE TO CATHOLICS

Complying to the closing laws of our health officials, there will be no services in the Sacred Heart church tomorrow. But this enforced closing does not do away with the obligation of Sunday observance. Therefore, let the head of each family assemble the members for prayer at 8 a. m. This closing unfortunately prevents our Annual Harvest Fair on October 17, 18 and 19. The date of holding it will be announced as soon as the ban has been removed.

Because of Klamath's repeated closing laws and holidays, it is extremely difficult to bring the school children up to standard in their studies. Parents will help a great deal by having the children study at home during this week.

NOTICE

Anyone having information as to the whereabouts of Miss E. J. Leatham, a nurse, formerly of this city, will confer a favor by notifying R. C. Grossbeck. 12-21

SCHOOL SITE IN MILLS TO BE PURCHASED

ALTHO VERY SMALL VOTE WAS
CAST, SENTIMENT WAS SHOWN
HEAVILY IN FAVOR OF THE
NEW LOCATION

Decision of the purchase of a new school site in Mills Addition was carried at the election yesterday by the narrow margin of only twenty-five votes, but when it is further explained that only forty-five votes were cast altogether, and that only ten were against the proposal made by the school board of District No. 1, further light is shed on the matter. Very slight interest on the part of the people was shown in the matter, one of the smallest votes ever cast being polled.

The new site comprises a block of sixteen lots in block 100 in the northwest corner of Mills Addition, and involves a consideration of \$5,750. It includes a building of three rooms now on the premises, which can be adapted to meet the present school needs there.

The new location is said to be well drained and well located for a school site.

Local Red Cross Activities

Those present at the Sewing Room yesterday were Mesdames—Percy Evans, Lawrence Phelps, C. C. Parsons, O. E. Sotner, T. R. Shillington, Pauline Bussing, W. W. McNeely, B. A. Dyer, J. I. Beard, A. E. Johnson, Laura E. Mayer, J. M. Johnson, Jo Evans, Carey Ramsey, Al McManer, C. V. Holmes, J. S. Willburn, E. E. Isaacs, Allen Stansbie, L. E. Sullivan.

Surgical Dressing Rooms, Mesdames, H. N. Moo, Fred Schallach, John Thomson, L. G. Van Bollen, Thos. McDonald, O. W. Robertson, Iva Hamager, Jas. H. Driscoll.

ANNOUNCEMENT

After carefully considering the responsibilities of the office, I have decided to become a candidate for mayor. A number of friends and business associates have voluntarily pledged their support. During these strenuous times, I shall not make an extended campaign, and have no pledge to make to any individual, except to do what, if elected, I shall strive to do fairly with all the people of our city, and to see that the laws are fully enforced, to the end that we may have a clean city morally and physically.

EDMUND M. CHILCOTE.

QUARANTINE AND ISOLATION ARE MADE DEFINITE

As a number of residents of Klamath Falls have made inquiries as to the full meaning of the word quarantine as used by the authorities to prevent the spread of disease and also the meaning of isolation, the following definitions have been given for their information:

Quarantine is "the adoption of measures to prevent the introduction of disease from one locality to another." By usage the word quarantine is used to designate port, land, state, interstate, municipal railway, house or room quarantine.

House quarantine, the patient should be isolated from other members of the family, all visitors should be excluded and members of the household should be forbidden attending business or school, or entering public places or conveyances.

The house should be placarded both at the front and rear entrances, showing the name of the disease in type of approved size isolation. By isolation is meant the separating of persons suffering from communicable disease, or carriers of the infecting organism, from other persons in such places and under such conditions as will prevent the direct or indirect conveyance of the infectious agent to susceptible persons.

FIRE PRICE HOLDERS
UNTIL JANUARY 18TH.

WASHINGTON, D. C. Oct. 12.—The maximum price on Douglas Fir will remain effective until January fifteenth, under an agreement reached today between the West

Coast Lumber Manufacturers and the War Industries Board.

Dr. F. R. Goddard will be on his annual vacation from October 1st to October 17.

This Range of Possibilities

This Electric Range will do everything that any other kind of cook stove will do and do it better.

There is no waste of fuel, as the heat is concentrated just where it is wanted and is under instant control. Shrinkage in food is less than with other stoves.

Neither smoke, fumes nor ashes are given off by this electric range. It is, therefore, the ideal equipment for the kitchen. It is always ready for immediate use at a turn of the switch and costs nothing for fuel when not actually cooking.

You will be surprised at the low cost of electricity for cooking under the "Combination Cooking and Lighting Rate" fixed by the Public Service Commission.

We will be glad to explain this rate to you and can refer you to many satisfied customers in Klamath Falls who have taken advantage of it.

Or we will be glad to demonstrate in your own home if you are interested.
